

AMERICAN FLEETS TEXAS COAST

ALLIED FLEET ANCHORED NEAR TOKYO

GENERAL MACARTHUR DESIGNATES EIGHTH ARMY OCCUPY TOKYO

SUPREME COMMANDER ALSO ANNOUNCES ADDITIONAL LANDING POINTS

MANILA, Aug. 27.—(AP)—Designating the Eighth army of Lt. Gen. Robert L. Eichelberger to occupy the Tokyo area, General MacArthur today announced there will be additional landings at Yokohama, Tokyo's port, and at Matsuyama, outside Tokyo Bay on the East side of the island.

Eichelberger, MacArthur said, will accompany the supreme Allied Commander when he arrives Aug. 30 in Japan.

Strong American and British naval forces already are peacefully anchored in Sagami Bay, within 30 miles of Tokyo.

The only previously-announced plans for landings in the Tokyo Bay area were at Atsugi airfield, where MacArthur will light with airborne troops Thursday, and at the Yokosuka naval base between Yokohama and Tokyo Bay.

The newly-announced landings will follow them by two days.

The notice of landings to come at Yokohama shows MacArthur's determination to gain early control of the important Tokyo Bay port facilities, while Tateyama is a strategic strategic point to the bottleneck Uraga strait entrance to the Bay. Yokohama is approximately 15 miles from Atsugi, and 10 from Yokosuka.

As Quail Routine The fleet's thrust into Sagami Bay proved as quiet as a routine peacetime maneuver at home. The final act of surrender will be signed aboard the battleship Missouri in Tokyo Bay Sunday (Japanese Time).

Manila headquarters of General MacArthur, Supreme Allied Commander for Japan, said it had not been informed officially of the fleet's entry. However, a spokesman stated the fleet was operating without reporting to MacArthur on all details of the master plan already laid down for the occupation and formal surrender.

MacArthur's headquarters disclosed two more phases of the steadily-unfolding program: The U. S. army 24th corps under Maj. Gen. John E. Huidekoper will occupy the Southern half of Korea, and the surrender of Hong Kong will be made to Rear Adm. C. H. J. Harcourt of the British navy.

Steamer recently into Bay Correspondence from Admiral Halsey's naval forces that have been standing off Japan for weeks reported the great warships of the U. S. Third Fleet and a British fleet force steamed serenely into the waters and dropped anchor. This was a spot 30 miles south of

ADMIRAL HALSEY'S FLEET SPEARHEAD IS NOW IN SAGAMI BAY

VICTORIOUS NAVAL UNITS ANCHORED SHORT DISTANCE FROM TOKYO

By AL DOPKING WITH ADMIRAL HALSEY, In Sagami Bay, Japan, Aug. 27.—(AP)—Led by Admiral Halsey's flagship, the battleship Missouri, and impressive spearhead of Third fleet warships triumphantly entered Japan's Sagami Bay today and dropped anchor within 25 miles of Tokyo.

Twelve hundred carrier planes roared overhead as great American and British battleships anchored two miles offshore under the shadow of towering Fujiyama at 1:30 p. m. (11 p. m. Central War Time).

Minesweepers immediately began clearing a path to the Yokosuka naval base, 15 miles away by water and eight miles by land cross Misaki peninsula from Katase town where the warships lay at rest.

The battleship Iowa came to a stop directly behind the Missouri. The victorious fleet was clearly visible to thousands of Japanese along the shore between Katase and Chigasaki.

American and British seamen, their faces and shirts moist with perspiration, lined decks for their first good look at the clearly visible Japanese coastline.

To Enter Tokyo Bay The first units of Halsey's occupation force, under Rear Adm. Oscar C. Badger, will enter Tokyo Bay tomorrow through two and a half-mile wide Uraga Strait, lined with 116 major caliber guns.

Two hours before entering Sagami Bay, the Missouri took aboard the Japanese emissaries.

The Japanese reported progress made in minesweeping both Sagami and Tokyo bays and received instructions for preparations to be made for Thursday's landings on Yokosuka.

Halsey did not see the Japanese

GREAT AIR FLEET ON OKINAWA BEING TUNED FOR FLIGHT

IN EARLY MORNING HOURS OF TOMORROW PLANES TAKE OFF FOR JAPAN

By SPENCER DAVIS OKINAWA, Aug. 27.—(AP)—Grease monkeys tuned the motors of a great air fleet of more than 350 transports and bombers on Okinawa's sprawling runways today, in readiness for the airborne occupation of Japan.

In the early morning hours tomorrow, long before dawn, the first plane loads of technicians and equipment will take off for Atsugi airfield, 23 airline miles southwest of Tokyo, to set the stage for one of the world's largest—and certainly longest—mass aerial movements on Thursday.

Ahead of them lie 1,980 statute miles of flight, to Tokyo and return.

Tomorrow's advance detachment has a multitude of tasks ahead. Some technicians will check Atsugi's 5,600-foot main runway and the two alternate strips, 5,100 and 4,150 feet long. Others will set up communications in Atsugi's control tower, between the field and the pilotless planes which will shuttle steadily for a week-end between Okinawa and the heart of Hirohito's empire. Still others will make ground reconnaissance patrols, to see that the Nipponese are adhering to surrender terms and to pick out command post sites.

Air transport command pilots have been summoned for runs all over the world for this mission. In the first flight tomorrow there will be 15 ATC planes, with pilots and crews chosen on the basis of seniority. Leading the group is Maj. Stanley V. Rush, Houston, Texas, chief pilot of the Pacific wing.

Other pilots in the first detachment include: Maj. William T. Cherry, Quail, Texas, pilot who was lost at sea and rescued with Capt. Eddie Rick-

Gen. Yamashita Opens Surrender Parley Monday

By RUSSELL BRINES MANILA, Aug. 27.—(AP)—Gen. Tomoyuki Yamashita, "The Tiger" commander of Japanese forces in the Philippines, opened surrender negotiations with the U. S. army today from his mountain hideout in Northern Luzon.

In a letter delivered to an army outpost near Kiangnan, Yamashita said he had received instructions from Tokyo to surrender and that he had ordered his surviving troops to stop fighting.

The famed Tiger said he believed negotiations could be entered into immediately, although he was still awaiting further instructions from Tokyo.

The letter was addressed to Maj. Gen. W. H. Gill, commander of the 32nd Division. It was brought in by a Japanese patrol contacting American lines through directions conveyed by Gill in a letter sent through the mountain lines.

The Japanese today from his mountain quest for the conqueror of Malaya and Corregidor resulted directly from Yamashita's action in releasing an American fighter pilot unharmed.

He was Capt. Dan Shaw of Potomac, Okla., who returned with a letter from Japanese mountain headquarters praising him for refusal to disclose information during 11 days he was held captive.

Gill pointed out the exact location of Yamashita's headquarters, and planes were sent over giving specific instructions to the enemy general on how to surrender.

PRELIMINARY PLANS FOR OCCUPATION OF JAPAN CARRIED OUT

AMERICAN MINESWEEPERS CLEARING PATH TO TOKYO FOR WARSHIPS

By LEONARD MILLMAN Associated Press War Editor American minesweepers began clearing a path to Tokyo today while other units of 111 Allied warships spearheading occupation forces dropped anchor within 25 miles of the shattered and confused Nipponese capital.

General MacArthur, preparing to move toward Japan, disclosed that American occupation would be extended to the Asiatic continent and down a suggestion and proposition that 2388 acres of land, now on the east side of the new channel of the Trinity river, be detached from Navarro county and attached to Henderson county.

The new channel straightening the river in a levee improvement district has cut off that amount of Navarro county. There are no bridges spanning the river to the land involved.

Disapprove Amendments. Equally decisive was the disapproval of the amendments to the state constitution in Navarro county dealing with the increase of the personnel of the supreme court, the payment of year-round salaries to legislators and the changes suggested in the old age assistance regulations, although some of the amendments would be operative as the vote over the state changed the trend indicated in Navarro county.

The first box received by the Sun Saturday night was an Em-house at 7:02 p. m. Two minutes after the polls closed. Twelve had been received at 7:15 p. m., and 24 boxes had been reported at 7:20 p. m. There had been 31 boxes received at 7:52 p. m. when a full occurred and only eight more came in before the returns

Big Superforts On Mercy Mission For Allied PW's

By ROBERT MYERS GUAM, Aug. 27.—(AP)—Mighty B-29s which had rained death on Japan became winged angels of mercy today and dropped food to Allied prisoners of war at Weishien, China.

Nine B-29s carried oil drums filled with canned goods anchored to bombs racks by the same shock absorbers that were used in carrying bombs.

Bombardiers released the drums the same way they had dropped bombs, but with the same precision and accuracy.

For many days before the mission's takeoff from Saipan, ordnance and maintenance workers strove to insure success of the first B-29 flight of this type.

One test drop on the 73rd bombardment's Isely field proved unsuccessful. Some parachutes failed to open.

As the planes took off for the mission, black letters three feet high on the under side of each plane spelled out "P. W. Weishien." The bombing missions, the bombardier, navigator and radar operator combined their equipment and skills to determine wind direction and velocity of the target. Accuracy of the parachute drops was all-important, for prisoners cannot venture beyond the confines of their camps to search for parcels that risked the breaking point of two island Sunday refueled and took off early today.

Airplane commanders included Lt. Joseph P. Morgan, 2826 22nd street, Lubbock, Texas.

WE CAN BREATHE EASIER AFTER ALLIES HAVE OCCUPIED JAPAN IN FULL AND COMPLETE MANNER

By DEWITT MACKENZIE Foreign Affairs Analyst. We shall be able to breathe easier when the occupation of Japan is an accomplished fact.

We do not mean to cross our bridges before we come to them, but there is the possibility that our forces may encounter untoward incidents. Nippon is true, the terrible punishment which comes with the first major defeat of her centuries of history.

This is true of the population as a whole, as witness Tokyo broadcasts reporting numerous suicides before the Mikado's palace. The Japan radio may be emphasizing this for propaganda purposes, but there is no reason to doubt that there have been such cases of hara-kiri, and that there will be others.

More to the point, however, is the fierce resentment of the militarists, and the fanatical hatred of the Kamikaze forces which have pledged to give their lives in suicide attacks against the Allies. Not even the Tokyo government can know how these radical elements, or the people in general, will react to contact with the armed forces of occupation.

The Mikado's government has made it quite clear, and more than once, that there is danger of clashes. There's no reason to question the sincerity of the Japanese authorities in this respect, since they have nothing to gain by lying about it. The way things stand they undoubtedly are quite anxious to see the occupation go off smoothly as are the Allies. Japan is soundly beaten, and foolish attacks by fanatical elements on our forces could only mean heavy retribution.

Anyway, if the Allies encounter difficulties, they will be prepared to deal with them, thanks to the obvious precautions which our high command is taking.

VOTERS DISAPPROVE LAND TRANSFER AND REALLOCATION FUNDS

SOLDIERS VOTE AMENDMENT CARRIED; THREE OTHERS LOST IN COUNTY

Navarro countians turned thumbs down on all propositions submitted them for changes in existing governmental agencies with the lone exception of the soldiers voting without a poll tax, incomplete unofficial returns compiled by this newspaper revealed. Four of the 46 boxes are included.

The electorate did not enforce the proposed re-allocation of county tax levies and also turned down a suggestion and proposition that 2388 acres of land, now on the east side of the new channel of the Trinity river, be detached from Navarro county and attached to Henderson county.

The new channel straightening the river in a levee improvement district has cut off that amount of Navarro county. There are no bridges spanning the river to the land involved.

Disapprove Amendments. Equally decisive was the disapproval of the amendments to the state constitution in Navarro county dealing with the increase of the personnel of the supreme court, the payment of year-round salaries to legislators and the changes suggested in the old age assistance regulations, although some of the amendments would be operative as the vote over the state changed the trend indicated in Navarro county.

PROBLEM OF MILLIONS OF JOBLESS WORKERS IS BRINGING ACTION

By STERLING F. GREEN WASHINGTON, Aug. 27.—(AP)—The frightening problem of millions of jobless workers stirred legislators and businessmen to action today.

An influential business group urged the government immediately to help pay the fare of stranded war workers to new jobs.

This body, the research committee of the nationwide C. E. D.—committee for economic development—also recommended that most states increase their payments to the unemployed.

Early-bird legislators tackled the same issue. Chairman Doughton (D-NC) brought the House Ways and Means Committee back to Capitol Hill today to tackle the administration's plans to broaden benefits to the jobless.

But the big government push toward the ways of peace made this news.

1. The office of war information wants to go out of business within 90 days.

2. The Public will begin to see electric toaster washers, refrigerators and ranges this fall, with vacuum cleaners "fairly plentiful" by Christmas. But—

3. Sellers of these new goods headed into full-scale rampages with OPA. They say OPA's policy on retail price ceilings—the same as in 1942 or very little higher—is too low. They'll meet here for a fight tomorrow.

Good news rolled in from the production front. New authoritative reports included:

Clothing: plenty of women's and children's dresses, slips, blouses, nightgowns, pajamas and pajamas by November. Good, but not rosy prospects for men's suits. (Returning servicemen will drain supplies for a while.)

Household Goods: Electrical appliances—washing machines, toasters, ranges, waffle irons and the like—will begin to appear this fall.

Pay Hike Texas Legislators Only Amendment Losing

DALLAS, Aug. 27.—(AP)—Texans rejected only one of four amendments submitted to them in Saturday's elections, Texas Election Bureau returns from 214 counties showed last night.

The amendment to raise salaries of legislators from \$600 to \$3,650 yearly was turned down 36,144 for 38,121 against.

One providing for nine instead of the present three members of the state supreme court was approved 75,751 for and 55,536 against.

The amendment providing increase of the state's old age pension allotments from \$15 to \$20 and liberal assistance to the needy blind and poor was 77,184 for approval and 38,121 against.

The soldier voting amendment was 103,834 for approval and 29,280 against.

The bureau had tabulated 135,111 votes Sunday when counting was discontinued for the day. It was estimated that not more than 40,000 votes were outstanding. The trend appeared established so definitely that there seemed no possibility that the three amendments leading could be defeated.

PIONEER RESIDENT CORSICANA DIED AT HOME EARLY MONDAY

J. M. HENRY, NATIVE OF ALABAMA, HAD LIVED HERE 55 YEARS

J. M. Henry, age 87 years, resident of Corsicana since 1890, died at his home here at an early hour Monday morning. He was born in Pickens county, Alabama, April 20, 1858, and came to Texas with his parents when he was six years old. They settled in Leon county.

Funeral services will be held Tuesday afternoon at 5 o'clock from the First Methodist church with Rev. Edwin F. Bohmrich, pastor, officiating. Burial will be in Oakwood cemetery.

He was married to Nannie Kellum Withers in Leon county, Sept. 6, 1882, and they moved to Corsicana Sept. 1, 1890. Eight children were born to the union, four of whom survive. They celebrated their Golden Wedding anniversary Sept. 6, 1932. Mrs. Henry died several years ago.

He was with the city street department here for many years. He was also active in church and civic affairs. He joined the First Methodist church in 1892 and was an active member until forced to retire recently on account of ill health.

Surviving are a son, J. W. Henry, Dallas; three daughters, Mrs. Cora Bosnick, Corsicana; Mrs. Jack Price, Corsicana; Mrs. E. Phillips, Salt Lake City, Utah; five grandchildren, two great-grandchildren and other relatives.

Funeral services will be J. L. Jackson, W. A. Martin, A. B. Douglas, L. I. Griffin, Boyce Martin, and Jack Megarity, honorary pallbearers will be N. F. Garrett, W. H. Hipsley, Rev. N. R. Stone, Rev. R. W. Nation, E. B. Dawson, Guy Gibson, J. F. Haslam, T. L. Currie, W. B. Waddell, members of the Brotherhood Bible class and friends of the family.

McCammon Funeral Home is directing the arrangements.

OFFICIAL CANVASS SPECIAL ELECTION TO START MONDAY

VOTERS OF STATE APPARENTLY ACCEPTED THREE OF FOUR AMENDMENTS

By DAVE CHEAVENS AUSTIN, Tex., Aug. 27.—(AP)—Official canvassing of returns in the special election Saturday at which Texans apparently accepted three of four proposed changes in its constitutional will start today in most counties over the state.

Commissioners' courts are required by law to formally canvass the vote in each county, and furnish the secretary of state with a certificate stating the result.

These returns are tabulated by the State Election Board. The Governor, the Attorney General, and the Secretary of State.

After they have done their work, the Governor certifies the result by proclamation, which is filed with the Secretary of State.

The State Election Board must canvass the returns within 15 days after the date of election. If some counties run late to turn in, the board will consider the returns as a whole, and that most residents of that town had moved land to Bay City and Wharton.

The fury of the storm had moved up the coast from Corpus Christi, and this immediate area began assessing damage from heavy winds which buffeted it.

A half million dollar property loss at Rockport was estimated by Janet Knight, Rockport newspaperwoman. She said wind at Rockport last night reached 135 miles an hour, unroofed numerous stores, and damaged other buildings. Many boats were blown out to sea, and a message through the highway patrol radio.

She said status of craft in the shrimping fleet which operates off Rockport, was not known.

A report direct from Victoria, about 40 miles inland, said a number of houses were blown over at Sea Drift. Winds up to 100 miles

See HURRICANE, Page 5

Hurley Attempts Settle Difference Chinese Factions

CHUNGKING, Aug. 27.—(AP)—Mao Gen. Patrick J. Hurley, U. S. Ambassador to China, left by plane today for Yenan to accompany Mao Tse-Tung and other Communist leaders back to Chungking for conferences with Generalissimo Chiang Kai-Shek.

Chiang has invited Mao to meet with him in an attempt to reach a peaceful settlement of differences between the National government and the North China Communists which have been threatening to plunge the nation into civil war.

Before departing Hurley issued a statement saying he was going to Yenan "with the consent and full approval of the Generalissimo and on invitation of Mao Tse-Tung, chairman of the Communist party of China."

"I am happy to be returning to Yenan. We have worked continually for more than a year to help the National government remove the possibility of civil war in China."

"In this controversy there have been so many conflicting elements that it is a source of gratification to us that we have been able to make a responsible, honest, and impartial decision between the National government and the Communists."

Soon after coming to China a year ago as president Roosevelt's special representative, Hurley initiated discussions between the National government and the Communists.

TOWNS ALONG GULF COAST LASHED BY FURIOUS WINDS TODAY

HEAVY PROPERTY DAMAGE REPORTS BEGINNING TO COME IN FROM COAST

By WILLIAM E. KEYS CORPUS CHRISTI, Tex., Aug. 27.—(AP)—Violent, 135-mile-an-hour winds of a tropical hurricane caused heavy and mounting damage today as they lashed the Matagorda Bay areas of Central Texas, west and the slowly moving storm pointed at the rich Houston industrial section.

The weather bureau's latest advisory placed the storm center 20 miles south of Palacios, which is on Matagorda Bay across from Port O'Connor.

A special weather bureau warning said the slow, northward movement of the storm would bring Houston in the danger area with winds of hurricane force due to strike the Houston section tonight.

The only two deaths directly attributable to the storm thus far reported were two fishermen who drowned off Port Isabel Saturday while the storm was moving in the gulf. But reports of heavy damage accumulated.

Wind 135 Miles Per Hour The State Highway Department at Houston said it talked at 12 noon (Central Time) with Port Lavaca and obtained a report that the wind was blowing 135 miles an hour, all telephone and telegraph lines were down, all roads were impassable; the tide was at 9 feet, and the barometer still dropping.

Radio reports to the Texas Highway Patrol from officers in the field, as well as reports from the coast, indicated that the storm had struck Southport, on the northeast side of San Antonio Bay, which stretches to the south and west of Port O'Connor behind Matagorda Island.

Heavy Property Damage There was heavy property damage at Austwell, on the Southwest side of San Antonio Bay, where the wind was 120 miles an hour, the patrol reported.

The water surged into Tivoli, a village in the same section, causing heavy damage. From Bay City, 22 miles inland from Matagorda, came a report that at 11:30 a. m. (CST) the wind had reached 70 miles an hour, and that most residents of that town had moved land to Bay City and Wharton.

The fury of the storm had moved up the coast from Corpus Christi, and this immediate area began assessing damage from heavy winds which buffeted it.

A half million dollar property loss at Rockport was estimated by Janet Knight, Rockport newspaperwoman. She said wind at Rockport last night reached 135 miles an hour, unroofed numerous stores, and damaged other buildings. Many boats were blown out to sea, and a message through the highway patrol radio.

See HURRICANE, Page 5

Port Lavaca Is Heavily Damaged By Gulf Storm

HOUSTON, Aug. 27.—(AP)—The Houston office of the state highway patrol talked to its radio patrol car at Port Lavaca at 2 p. m. today and was told that every house in that place was either demolished or damaged.

The Port Lavaca patrolman quoted the sheriff there as authority for the statement. The sheriff also was quoted as saying that the storm was worse in Port Lavaca than the storm in 1942 and that the tide there was 12 feet high.

The highway patrol reported further that a 70-mile per hour wind was blowing between Port Lavaca and Blessing and that Highway 35 was closed at Blessing.

Col. Homer Garrison, director of the state department of public safety, said that he had made preparations to send his men into the devastated area as soon as possible to police against looting and vandalism. Two cars were ready to go and one from Wharton to take over the storm-torn area.

CORSICANA, TEX., AUG. 28, 1945

DEFENSIVE SCIENCE

The worst thing about the Japs, as demonstrated so far in this war, is their shiftness. They started with a "sneak attack" which ignored the rules of war to which they themselves were pledged to adhere, and they continue their sneaking. Still worse are the barbarities they have committed.

It is impossible, of course, to indict a whole nation, and there are probably plenty of good and honorable people among the Japanese. But certain this cannot be said of the leaders who precipitated the present war and set the pattern for its operation. Much of it is pure savagery, hardly possible in a really civilized race, and practiced not merely by irresponsible individuals, but initiated by the military leaders.

Thus it has become inevitable that, while the enemy resorts to such barbarous methods, the Allies are obliged to utilize the new, scientific procedures whereby they can best defend themselves. And these are weapons as superior to those of the Japanese as the Japs' own weapons are superior to the bows and arrows of their ancestors.

Against the terrific atomic weapons provided by our scientists, they are helpless. The smallest of weapons, the atom, becomes the greatest, and science, which develops them, becomes supreme.

PEACE-TIME THRIFT

Peace broke out so suddenly and violently last week that millions of people were not ready for it. We are going to be very busy for many months, making the necessary changes.

But it's all right, and there isn't much grumbling, even though war orders have to be cut as rapidly as possible, to the extent of about \$40,000,000,000 a year.

The worst thing about it is the forecast of millions of people temporarily thrown out of work. The resulting idleness is expected to reach its lowest level in the latter part of the coming winter, with recovery starting about the middle of next year. These forecasts, of course, are not sure—the cleverest experts may be wrong. But there is no harm in people with good income laying by whatever they can spare against a rainy day.

SENATORIAL ABSENCE

How long should a senator serve without attending the Senate? Some Virginians are asking that in the case of Carter Glass, who has nearly 50 years of eminent public service to his credit, including the secretaryship of the treasury under President Wilson, but who has not answered a roll call since June 22, 1942. As Senator Glass is 87, it is not thought that his health will mend greatly before the expiration of his term in 1949.

Senators mitigate their absence by a standing arrangement of pairing with some senator of the opposite party, so that their votes are not totally lost. Still there are other senatorial duties besides voting, and continued absence may well be criticized. The late Senator Hiram Johnson of California had visibly failed in many ways before his death, and was often away from the senate. Yet California reelected him in 1940, when this break-up had already begun to appear, and might have done so again in 1946.

The Glass case is of course the war seems to be over, but it's probably just as well to store away a couple of billion dollars' worth of military supplies, just in case.

Edgar A. Guest

THE SLAVE
No time had he for jest or song
The hills were steep, the way was long,
And far the goal he hoped to gain
So bound was he without a chain.

He lived among a people free
And never dreamed a slave was he,
As meek a slave as could be found
Though one should search the world around.

This single purpose held him fast:
That rich he should become at last,
Nor turned he left nor turned he right,
Except that aid his purse it might.

DIVINE JAPS

The Japanese people are a curious compound of antiquity and modernity. Until lately they seem to have regarded themselves as superhuman, and a race of gods. They were quite frank about it, especially the believers in Shintoism. They stated their views in the following fashion.

"The divine will has expressed itself through the life of the Yamato (Japanese) race. We accordingly believe that the national experience of the Japanese people and the will of the gods are identical, and that the Japanese race was placed on earth as the realization of the life of the gods, and is possessed of their divine attributes."

Maybe they are not so sure about that now. And they will be still less so when General MacArthur gets through with them.

PROGRESS

While there seems no reason to doubt that civilized nations, especially our own country, are now coming into an age of unparalleled energy, it may be well not to put too much emphasis on this form of human progress. Material things are necessary, but immaterial things—human character, progress in the development of art, learning, human friendliness and cooperation in the finer aspects of life—these are the things that count.

Man will be really civilized when people have forgotten that there ever was such a thing as war, strife and all the petty distractions that keep him from realizing his highest aims.

Even in our greatest victories, military and material, it may well be kept in mind that these are not the ultimate goal of human effort. The most important things are learned in the quiet church, rather than in the noisy market place.

LOOKING BACK

Americans love a parade, and are good at organizing such functions and celebrating them with due ceremony and eclat. And there have been heaven-sent opportunities in these last few days, in spite of the somber background of tragedy. Much of the parading and jollifying, indeed, seemed as if it were meant to soften the grievous memories, and in general they served that purpose well. One of the finest and most reassuring things about this great nation is the way it can take hard blows and come up smiling.

Before Americans get too chummy again with the Germans, it may be well to remind the public occasionally of those Nazi crematories where Allied prisoners were disposed of.

A Japanese proverb says, "At 6 one realizes the faults of 9." Meaning that the Japanese now realize that Pearl Harbor was not such a good idea after all.

Of course the war seems to be over, but it's probably just as well to store away a couple of billion dollars' worth of military supplies, just in case.

When returning veterans find themselves bored for lack of excitement, all they need is to mix with the youngsters in the back lot.

THE LAST OF THE DOTTED LINES

LONG-TERM LOANS AT LOW INTEREST FOR SMALL BUSINESS

The Smaller War Plants Corporation in the transition period following peace has a deeper responsibility than ever before to supply long-term capital at low rates of interest to small business for the production of essential civilian goods. Russell Smith, SWPC district manager, informed the Corsicana Chamber of Commerce Friday.

During the war the list of "essential civilian goods" was highly limited to a few necessities, but the definition steadily is being liberalized by the SWPC Board of Directors to take in new types of processing and manufacturing, Smith said.

The liberal interpretation of the lending powers of SWPC now permits direct loans for the production of almost all types of articles with the exception of items with a strictly luxury cost.

Liberal Policy
"Essentiality" will be construed liberally as possible in all instances when loans are requested for the manufacture or final processing of items, Smith continued.

The need to maintain high employment levels throughout the nation is having a direct reflection on SWPC lending policies, and one of the strong determining factors in loans made by SWPC will be the number of jobs to be made available by the small plant applying for the loan.

Aid Small Companies
In the reconversion period SWPC will exert the lending powers granted it by congress to aid thousands of small companies in shifting back into normal peacetime production and in assisting new businesses to get started in order that small business as a whole may maintain its competitive position in the free economy of America, and that the economic stability of the nation may be safeguarded, Smith said.

Long-term Loans
In the months immediately ahead the Corporation can make long-term loans to buy buildings and building sites, improve buildings and convert buildings to peacetime manufacture. It can also make loans for working capital where the working capital of a plant has been depleted.

Bank participation in all of these loans is encouraged, and the percentage of bank participation in the Southwest Region of SWPC is steadily increasing.

Now Is Time Give Thought Fall Garden

Now is the time to give thought to a fall garden. The happy change from war to peace does not relieve Texas families from growing year-round vegetables, says Ezelle C. McClellan, negro home demonstration agent in Navarro county.

Tender green mustard, leaf lettuce, green beans, Swiss chard, beets and onions from sets, and white potatoes are vegetables which should be planted in late August and early September, she says.

Even if it remains hot during October and early November these heat tolerant vegetables will hold their own. On the other hand spinach, carrots and fall English peas should not be planted until the cool season definitely has arrived, she points out.

Additional information on growing a fall garden and suggested vegetables to plant may be obtained from the agent's office.

The Pete Allens Are Parents of Baby Girl

An eight-pound daughter, Mary Virginia, was born to Mrs. and Mr. C. (Pete) Allen at the Navarro clinic Thursday evening at 8:50 o'clock. The little miss has been named for her grandmothers. The grandparents are Mr. and Mrs. J. Walls, Alvado, and Mr. and Mrs. J. O. Allen, Whitesboro. Allen is the head football coach at Corsicana High School, and is director of the summer recreation program at the senior high school campus.

Labor Situation Revealed Figures From Local USES

Principal demands for labor in the Corsicana and Navarro county area this week has been for railroad track work, skilled machine shop workers and construction labor, according to W. B. Reedy, manager of the U. S. Employment Service Office here.

The USES official pointed out that Corsicana is in a better position at the present time as far as employment is concerned than most cities of similar size. He said should some industrial plant employing between 300 and 400 persons be secured, "we would hardly notice the reconversion in this area."

Workers are reluctant to accept jobs at wages less than war industry wages, Reedy said.

Quoting figures as reflecting the activities of his office for the period of August 18-22, Reedy's statement revealed:

New persons registering for jobs, 40 (male) 32; job openings listed with the office, 120; referred to jobs by main 32; hired 18 (male 6); local firms requesting manpower, 15.

Have Received Promotion.
Capt. and Mrs. E. Hoyt Smith, officers in charge of the local Salvation Army post, have received their promotion to the rank of full captain. They have served in that rank for the past two years on probation, Capt. Smith said Friday morning.

Wortham Gets First Bale
WORTHAM, August 25—(Sp)—Wortham received its first bale of cotton this year early Thursday morning, August 23rd.

The bale was raised by Sam Beldin, Wortham farmer, and was ginned by A. Posey Gin Co., and weighed 501 pounds. The bale was bought by a local cotton buyer for 21c per pound.

SGT. A. M. DOUGLASS RECEIVES BRONZE STAR FOR SERVICES

M-Sgt. Albert M. Douglass of Corsicana has received the Bronze Star medal for "meritorious service in action" for his work as communications officer from Dec. 22, 1944 to May 15, 1945, in two campaigns. It has been learned here. The decoration is for achievements during the campaign at Morota, Netherlands East Indies and Luzon, Philippine Islands, according to the citation, for his personal supervision of communications, supplies and men and despite adverse conditions, causing the communication systems to operate efficiently and thereby contributing to the victory of the American forces.

Sgt. Douglass entered the armed forces April 15, 1942, and has been overseas since July, 1943.

His wife, Mrs. Rose Elizabeth Douglass, is a resident of San Antonio. His parents are Mr. and Mrs. A. B. Douglass, Jr., of Corsicana.

Announcement of Son.
Pfc and Mrs. William G. Stokes announce the arrival of son, William Glenn III, born August 21 at the Navarro Clinic, weight seven pounds five ounces. The paternal grandparents are Mr. and Mrs. Glenn Stokes, Dallas, and Mr. and Mrs. W. L. Hendon of Richmond are the maternal grandparents. Pfc. Stokes is a member of the Army of Occupation in Europe.

Penicillin Available
Penicillin is now available in limited quantities through the State Department of Health, according to a letter received Friday morning by the Corsicana-Navarro Health Department.

The wonder drug will be used for the treatment of gonorrhea since that disease can now be treated locally within a period of four hours.

CONTRACT AWARDED LEVELING 24 MILES PAVEMENT ON U. S. 75

The state highway department has awarded to Wallace and Bowden a contract for leveling up 2 1/2 miles of concrete pavement on U. S. 75 in Navarro and Ellis Counties.

The work will be performed under a new process developed by A. B. Griffin, the Department's district engineer at Dallas, who directed for many years experiments to find a satisfactory method for raising low sections of concrete pavement.

Known as an "asphalt underseal," the process calls for forcing hot asphalt through holes drilled in low sections of concrete pavement slabs. Pressure of the asphalt slowly raises the slab until level, permanently sealing the area under the concrete. Water during subsequent rains is then prevented from seeping in to soften the soil beneath upon which the slab rests.

Under many sections of concrete pavement in Texas and other states water has penetrated to mix with the soil beneath expansion joints. Slightly depressing when a heavy truck rolls over, the slab forces this mixture to ooze out at the joint. This repeated pumping action soon creates a void under the slab which causes it to drop unevenly. It often cracks in the process.

Heavy wartime truck traffic has aided rapid deterioration of thousands of miles of Texas' concrete highways due to these "pumping joints," as engineers call them.

"Mud-Jacking"
A process similar to the "asphalt underseal" has long been in use. It is called "mud-jacking" forcing a mixture of soil and cement under low sections of concrete. In many instances sections given this treatment were rough again within a few years.

Griffin believes the new process will prove more permanent, as the asphalt not only seals off water, but has flexibility to permit

NEW RED STAMPS BECOME GOOD ON SATURDAY, SEPT. 1

WASHINGTON, Aug. 24.—(AP)—These red stamps will become good Saturday, Sept. 1 for meats and fats: LI, MI, NI, P, and Q.

They are being validated for the usual period of four months—Sept. 1 through Dec. 31. Each stamp is worth 10 points, making a total of 50.

Invalid After Aug. 31 will be stamps Q2, R2, S2, T2 and U2.

What the OPA didn't tell—and won't until next week—is how much meat red stamps will buy in September. All indications, however, point to substantial reductions in point values.

H. A. GARLAND TO JOIN LOCAL HIGH SCHOOL FACULTY

H. A. Garland joins the Corsicana High School faculty as a geometry teacher for the 1945-1946 school session, it has been revealed.

Garland had been superintendent of the Mildred Schools for several years and had been a school executive for many years before going to Mildred. He served as a member of the executive committee of the class B interscholastic league of this section, and for years was a director in the county University of Texas Interscholastic League.

SAN ANTONIO TYPO UNION PRINTERS ON STRIKE ON MONDAY

SAN ANTONIO, Aug. 27.—(AP)—Three San Antonio newspapers were to be published today from engraved plates after members of the local Typographical Union voted yesterday morning to strike. The walkout yesterday left the composing rooms of the Express, News and Light without printers. The strike vote was taken after a proposed new contract with the Express Publishing Company and the Light Publishing Company. Publishers said the dispute over the contract was handed to the daily newspaper commission of the War Labor Board at Chicago July 17 and that decision from the commission was expected daily.

Mr. and Mrs. Virgil Bounds of McGregor were in Wortham several days this week.

Mrs. Edgar Hubbard are spending two weeks' vacation near Kerrville in the Davis mountains.

Mrs. George Stubbs visited her

Information From Navarro County Rationing Board

Navarro County's central truck tire inspection station will pass out of existence on September 1 the district office in Dallas has notified Wilbur A. Wright, chairman of the war price and rationing board.

It also has been reported that the emergency truck tire board operating in Dallas for more than a year will cease functioning and each local board will receive a quota of large truck tires for the month of September.

Since gasoline is no longer rationed, some people are under the impression that it is not necessary to file certificates of transfer when trucks, cars and motorcycles are sold.

"All vehicles are still sold under ceiling prices and these certificates must be filed with the board as they were formerly," the chairman declared.

A slaughterer who has two or more Class 1 or Class 2 slaughtering establishments may, for the purpose of the area distribution section only, group them together and treat the group as one slaughtering establishment.

W. A. Wright, Navarro County War Price and Rationing Board chairman, said Saturday.

This means that a slaughterer may (1) combine the reports and records required under the section, and (2) fulfill the requirements of his area distribution pattern from the total production of the slaughtering establishments.

Instead of having to adhere to the distribution pattern of each individual establishment.

A small quota of additional canning sugar has been allotted to Navarro county, according to W. A. Wright, chairman of the war price and rationing board.

Those who have not received any canning sugar must make application by August 31. Those who received only five pounds of additional five pounds.

"The prices for reconversion products for which we have so long been waiting will be kept at an close, as possible to 1942 retail levels," Wright Bowles has advised rationing boards.

"I am talking about automobiles, refrigerators, washing machines, electric appliances and all the other related articles which will be coming into the market in increased abundance," he said.

A detailed announcement on rationing prices will be made in the next few days. Specific prices on automobiles and other items will follow rapidly.

"Business can be assured that the price will proceed with all possible speed to lighten the burden of red tape and to eliminate delay," Bowles said.

mother, who is in a Dallas hospital, recovering from an operation.

Miss Isabel Bradley and Mrs. J. H. Love are visiting friends and relatives in Dallas.

Mr. and Mrs. Warren Wallis and little daughter of Dallas returned home after a few days' visit with their parents, Mrs. E. E. Tucker, who is a patient in the Navarro Clinic.

Mr. and Mrs. R. L. Willford and Mrs. W. A. Povey were Fairfield visitors Tuesday.

Rufus Bounds of Streetman was a business visitor here this week.

Miss Annie Lou Jones, teacher in the Fairfield schools, is in Wortham visiting relatives and friends, house guest of Mrs. F. L. Tole.

IN UNIFORM

Pfc. Weldon Hagler, U. S. Army, veteran of the campaigns in the European Theatre, has returned home and is visiting his parents, Mr. and Mrs. S. Hagler, and other relatives. He entered the armed forces from Ennis where he was connected with the Southern Pacific Lines.

ADVANCED SERVICES OF SUPPLY Base, China—Capt. Lawie L. Jackson of 610 West Park, Corsicana, Texas, is a member of the first regularly assigned food inspection unit supervising the veterinary food inspection slaughterhouse here.

CAMP PARKS, Calif.—Carpenter Mate Louis F. Smotherman, 40, 211 North 18th street, Corsicana, Texas, veteran of 28 months service with the Navy Seabees in the Pacific, has arrived here for re-assignment. He recently completed a 30-day leave.

Smotherman served in the Hawaiian Islands and took part in the invasion of Saipan. Before entering the service he was a member of the A. J. Rife Construction Co., in Dallas, Texas.

Pvt. William C. Gunn, Purdon, was promoted to private first class August 21, by special order of Gordon General Hospital, Chickasha, where Pfc. Gunn is now a patient.

Tech. Sgt. Charles Campbell, son of Mr. and Mrs. Tom Campbell, Blooming Grove, is now stationed in Florida, where he is hospitalized. A veteran of 25 months (flight) over Germany, he was shot down with nine other members of his crew. The only one of the 10 able to walk today, Campbell has permanent injuries from himself. Three members of the crew were killed and six are in hospitals. His mother and sister, Betty, recently returned from visiting him in Florida.

KEESLER FIELD, Biloxi, Miss.—Pvt. Jimmie D. Boggett, 304 South Thirtieth street, Corsicana, was graduated recently from the AAF Training Command airplane mechanics course at Keesler Field.

CAMP HOOD, Texas—Many new officers have been assigned to Camp Hood for duty with the 184th Service Force in order to replace those officers who have left camp recently for overseas duty. Among these are Major Warren R. Hall, Jr., of Corsicana, assistant chaplain of Headquarters 34th Infantry Division.

Sgt. Gregory Bell, son of Mr. and Mrs. D. F. Bell of Rice, and Pfc. Albert M. Emmert, Jr., son of Mrs. Burma L. Emmert of Rice, both of the 11th Medical Battalion, have been awarded Bronze Arrowheads to wear on their European Theatre of Operations ribbons. The Arrowheads are awarded for participation in the Salerno and Riviera invasions.

Capt. Willmote S. Curtis has notified his mother, Mrs. W. S. Curtis, 815 West Thirtieth street, that he received the presidential citation for service in the Vosge Mountains. He formerly was with the 36th Division and the 132nd Field Artillery.

MADISON, Wis.—Staff Sgt. Walter A. James, Jr., whose wife, Mrs. Charles James, lives in Corsicana at 310 South 18th Street, has been graduated from the AAF Training Command aircraft radio mechanics school at Truxev Field, it was announced by the post commander.

SAN ANTONIO, Texas—Having completed a tour of duty of 18 months in the European Theatre of Operations, Staff Sgt. Mark M. Kention of Bynum, Texas has arrived at the San Antonio District, AAF Personnel Distribution Command, for processing and reassignment. He wears the Presidential Citation, Air Medal with Cluster and ETO ribbon with seven stars.

SAN ANTONIO Having completed a 30-month tour of duty in the Mediterranean-European Theatre of Operations, Staff Sgt. Felix R. Jackson, Corsicana, route 4, has arrived at the San Antonio District, AAF Personnel Distribution Command, for processing and reassignment. He wears the Air Medal.

35TH INFANTRY DIVISION, Assembly Area Command, France.

Lt. George Labban, Jr., son of Mr. and Mrs. George Labban, 1217 West Second Avenue, Corsicana, is en route home from Europe with the 35th Infantry division, which in 10 months battled across the Elbe River to within 42 miles from Berlin.

MACDILL FIELD, Tampa, Fla.—Lt. A. W. McGlothlin, Jr., whose wife, Mrs. Peggy K. McGlothlin, lives in Dallas, is now graduating from MacDill Field, Tampa, Fla., where he received combat crew training as an air-

ELECTION

CONTINUED FROM FIRST PAGE

were stopped shortly before 10 a. m., giving a total of 42 boxes—leaving out Purley, Cade, Rushing and Cyser Creek, which were reported Saturday night. Cyser Creek and Purley reported Monday morning. The unreported boxes will not affect the result.

Little interest in the election and few telephone calls were received by this newspaper relative to the outcome of the voting, either locally or over the state.

Following are the total unofficial votes as received and tabulated:

For the soldier vote, 1196; against 424.

For increase legislators pay, 185; against 1489.

For increase of supreme court, 504; against 1159.

For pension change, 658; against 1027.

For re-allocation tax levies, 673; against 886.

For transfer of land to Henderson county, 495; against 1069.

Navarro county commissioners' court Monday morning met in the special session on financial and budget matters following the receipt of the news of the re-allocation proposition had been defeated.

The commissioners planned to canvass and declare the official vote during Monday afternoon in the event that the returns are received at the courthouse.

Voted for Transfer.

Henderson county electors favored the detaching of the 8355 acres east of the Trinity river from Navarro county and attaching it to Henderson county. Reports from the Athens Review during Monday morning stated that there were 928 votes cast for the measure and 98 against, including 23 out of 25 boxes of that county.

Both counties aggregate vote is 1423 for and 1197 against, but under the law in the case, as expressed by L. B. Dawson, an attorney for landowners seeking the change, it is necessary for the proposition to be approved by both counties. Since Navarro county turned down the proposition, it is unoperative and the boundary between the two counties remains the old original channel of the river.

plane commander on a B-29 Super-Fortress, MacDill Army Air Field is part of the Third Air Force, which trains heavy bomber crews in the United States.

A-S Clyde G. Nokes has returned to Phoenix, Ariz., following a 20-day turlough spent with his parents, Mr. and Mrs. W. A. Nokes.

Revival Meeting

A tent meeting under the direction of Elder J. F. Prince will be conducted at 8:30 o'clock each night this week on West Eleventh Avenue.

Bronze Star Medal Has Been Awarded Capt. Lloyd Brooks

Capt. Lloyd W. Brooks has received the Bronze Star for heroic achievement in connection with military operations against the enemy at Ormoc, Leyte, Philippine Islands on December 7, 1944.

Captain Brooks was fighter controller on one of three radar control ships protecting an amphibious landing at Ormoc. When a large formation of enemy aircraft was reported only 10 miles away, Captain Brooks immediately directed his fighter patrol, which was in the vicinity, to intercept the enemy.

Although the patrol planes shot down nine of the enemy bombers before the formation reached the control ship, several of the remaining aircraft made suicide dives on the vessel. Captain Brooks remained at his post until three of the attacking planes crashed into the ship, set it ablaze and wrecked the section in which he was working. He then assisted in evacuating the personnel in his section and was the last man to leave.

After abandoning ship, Captain Brooks helped push a life raft to a wounded sailor and remained in the water on hour until a rescue ship arrived.

Captain Brooks is the son of Mrs. Florence Brooks of the State Home and he is the brother of C. H. Brooks of this city.

Local Guard Attends Bivouac At Athens

Navarro county personnel of the Thirty-Seventh Battalion, Texas State Guard, attended a weekend bivouac at Athens attended by units of the 37th, Eighth and Twelfth Battalions, it was learned here.

A number of Federal officers attended the bivouac. A three-day school of instruction at Athens.

as Governor he was an advocate of liberalized old age pensions.

O'Daniel had contended that adoption of the amendment might mean a reduction in pensions since under its allocation of welfare funds between the needy blind, dependent children, and the aged, is up to the legislature.

The other amendments adopted give service men and women the right to vote in time of war without payment of the poll tax, and increase the Supreme Court membership from three to nine.

Actually, the court has nine members including the six members of the commission of appeals but the commissioners have no vote on decisions.

emissaries, who were turned over to his chief of staff, Rear Admiral Robert B. Carney.

Instructions to Japanese.

The Japanese, including two officers, 13 pilots and six interpreters were instructed, among other things:

"Any violence or resistance by the Japanese will be held to be a mutinous act against the orders of the emperor and dealt with in force.

"Coastal defenses must mark all guns with white flags, remove all personnel from three isles in Tokyo Bay and from Futtsu Baki fort on Western Chiba peninsula (eastern side of Tokyo Bay).

"Demilitarize all guns. All weapons, ammunition and military stores must be locked in armories. All nets and camouflage must be removed from ships in the harbor.

so that they will be recognizable from the air.

"All naval and other military personnel except those actually necessary must be withdrawn by 4 a. m. Wednesday (2 p. m. Tuesday, Central Standard Time, along with all civilian employees. All personnel must be withdrawn from the island forts without exception.

Arrives Home

Annual Easter Seal Sale

Decided Success

According to a report from the district office of the Texas Society for Crippled Children, the twelfth annual Easter Seal Sale was a decided success.

Every county is reported to have shown growth over last year, which helped to make a gross increase of 2 per cent. In addition, the county affiliates retained more money locally.

A resume of Seal Sale results in Navarero county reveals that \$430 worth of seals were sold in Navarero county under the supervision of Mrs. J. Brown. Navarero County chairman of crippled children's work said that an expense of \$24.85 was incurred in staging the sale.

STATE HOME SCHOOL WILL OPEN TUESDAY, SEPTEMBER 4TH

School will open at the State Home on Tuesday, Sept. 4, it has been announced by Moyne L. Kelly, superintendent.

Football practice at the Home will start on Sept. 3, according to Coach Charles C. Irby, who is optimistic over the prospects of a good team this year.

The faculty, as announced by Supt. Kelly, follows:

W. C. Murdock, educational director; Chas. Irby, principal of the high school and coach; John L. Roberts, instructor in mechanics; Miss Martha Roberts, cosmetology instructor; D. R. Osburn, vocational agriculture; Mrs. Bertha Posey, science; Mrs. Edith Pollock, home making; Mrs. Ruth Miller, mathematics; Miss Margaret Westbrook, English and speech; Mrs. M. Chapman, commercial; Mrs. Caroline Gray, history.

Mrs. Nettie B. Stokes, grade school; Mrs. Mabel Boltz, grade school; Mrs. Willie Davis, grade school; Miss Virginia McKinney, grade school; Mrs. M. L. Murdock, grade school; Mrs. Mary Olsen, grade school; Mrs. Louise Kavelle, grade school; Miss Edith Stewart, grade school; Miss Julia Stewart, grade school; Miss LuOuida Vinson, grade school; Mrs. Inez Watson, grade school; Mrs. Brent Williamson, grade school; Miss Alice Wilson, grade school; Mrs. Dora Rutherford, grade school; Mrs. F. Finis Farr, grade school; music.

Five members of the spring graduating class plan to enter college during the fall semester. Exie Stokes and Beth Herring will attend NTSTC, Denton; Jonelle Sutton will attend Austin College, and Mozelle Sutton and Yvonne Roberts will attend San Marcos State Teachers College.

Dr. Pepper Won Softball Title Friday Evening

Dr. Pepper won the city softball league championship Friday evening, 11-3, over the DeLuxe Bus ten at the high school diamond.

This victory was the third straight for the Dr. Pepper club. Dr. Pepper finished in second place in the regular season in percentage and DeLuxe Bus finished first. They survived the first-round play-off Shaughnessy series.

The game was called in the seventh inning because of darkness.

Rufus Nutt, outfielder, proved the big noise with timely hits with runners on base.

Dr. Pepper club is composed of Johnny Nutt, manager and third baseman; Nutt Ray, catcher and pitcher; Fred Gray, first base; Earl Watkins, shortstop; George Watkins, second base; John Denney, catcher; J. E. Lawhorn, rover; Rufus Nutt, left field; Fred Nutt, center field, and William Gathright, right field.

Clyde Watson Will Not Teach Further In Corsicana High

Clyde Watson, mathematics teacher in Corsicana High School for the past several years, formerly with Barry and other Navarro County schools, is now employed by the Texas Power and Light Company and is leaving the teaching field, it has been announced. Watson at one time was basketball coach at Corsicana High school.

Negro Selectees Inducted. Five negro selectees were inducted into the U. S. armed forces this week from the Navarro County draft board.

R. B. Gilkey and Mason Junior Walker were sent to the army from Board No. 1, while Tommie Lee Bush and Finis Louis Chandler, both from Board No. 1, were accepted by the navy. Howard Curtis McKie from No. 2 was accepted by the army.

Dr. and Mrs. W. R. Sneed and daughter, Ann, visited relatives in Wortham this week.

What a magnificent thing the liquor stores have done! Immediately after the presidential proclamation of victory over Japan, they closed their doors for two days. Just think of the great loss which resulted! Think of the thousands of dollars in taxes which would have flowed into the treasury of the state for the old-age pension. And consider what an infringement it was on private rights for those stores not to do business! If the whiskey joints had remained open those days, there would have been many rich gifts for hospitals and orphan homes. Why didn't somebody dig up that old argument that for liquor stores to close causes the bootleggers to thrive and that people can buy the stuff anyway and you may as well be open with it? Of course, there would have been more law-breaking, crime, murder and deaths by car accidents, but the evil effects are minor when compared to the advantages to come from the sale of liquor!

It does seem that people could see that if it's good for the package stores to close on V-J Day, it would be a good thing for them to close forevermore.

ON OKINAWA—Pvt. Robert J. Whorton, 19, U. S. Army, is now stationed on Okinawa in the Pacific area, according to information received by his parents, Mr. and Mrs. J. B. Whorton, 801 North Commerce street. A 1944 graduate of the Blooming Grove high school, he entered the service in January 1945.

Courthouse News

District Court.

District Judge A. P. Mays Friday afternoon declined to hold a writ of habeas corpus in contempt of an injunction granted in the local district court restraining and enjoining him from violating the prohibition laws in Navarro County. Insufficient evidence was cited as the reason for the finding of the court.

The hearing brought by Bob Maddox and Brandon Bickett, assistant attorney generals of Texas, this week, was based on the alleged violation of the injunction June 20, 1945.

Court attaches said that a similar contempt of court writ was writ brought by the attorney general's department.

The defendant was represented by Doyle Pevhouse of Corsicana and Will Justice of Athens.

The case of Mamie Powell vs. W. F. Montfort et al suit to set aside judgment is set for hearing at opening of the ninth week of the July term of District Court, Tuesday, August 28.

Martha Jo Boyce vs. Milton E. District Clerk's Office.

George W. Putman et ux vs. the First National Bank of Dawson, damages and title.

Clara Mae Polmar vs. Frank L. Polmar, divorce.

Mrs. Marie Ivie vs. Raymond Ivie, divorce.

County Attorney's Office.

One complaint for violation of prohibition laws was accepted by Assistant County Attorney Mrs. Ethel Hook.

One case for violation of prohibition laws was accepted by assistant county attorney David Ralston.

County Court.

Ben Books entered a plea of guilty to charges of violation of prohibition laws and was fined \$100 and costs by Judge L. L. Powell.

Travis D. Andrews entered a plea of guilty to violation of prohibition laws charges Monday morning and was fined \$100 and costs by Judge L. L. Powell.

Justice Court.

One case for violation of the prohibition laws was transferred to the county court from the court of Judge A. E. Foster. Two were fined for driving without a license and one for overload of truck.

Judge W. H. Johnson fined one for passing a car on a hill and one for driving without a license.

One was fined by Judge A. E. Foster for swindling with worthless check and one for overlight of truck.

Judge W. H. Johnson fined one for failure to show registration papers for truck and one for careless and negligent driving.

One was fined by Judge A. E. Foster for driving without a railroad permit after complaint was filed by Texas Railroad Commission. A case for rape was filed in Judge Foster's court Monday morning.

Two were fined for intoxication and one for improper registration of vehicle by Judge W. H. Johnson. One violation of prohibition laws case was filed in Judge Johnson's court.

Sheriff's Office.

One arrest for violation of prohibition laws was made by Deputy C. E. Burton Thursday afternoon. Sheriff Cap Curington reported.

HAY FEVER IS NOT DANGEROUS DISEASE BUT VERY ANNOYING

While in itself fall hay fever is not as dangerous a disease as many of the others to which man is heir, it is doubtful if any are more annoying, says Dr. Will Miller, acting director of Corsicana-Navarro Health Department.

"The watery discharge from the eyes and nose, the sneezing, the headaches and the general depression are the familiar signs that mark the hay fever victim," according to Dr. Miller. "Besides the real discomfort caused by these symptoms, there is a much more serious point to be considered. Physicians have found that repeated attacks of hay fever predispose to sinus disease, colds and asthma."

The summer variety of hay fever comes chiefly from grasses and wild flowers, Dr. Miller states. In late spring and early summer, pollen from the grasses such as timothy, June grass, orchard grass and redtop, and a few weeds, are the chief offenders.

The most important hay fever period starts about now—the middle and latter part of August—and lasts until the end of September, and sometimes until frost appears. At this time the weeds shed its pollen. More people suffer from hay fever at this time of the year than during all the other months," Dr. Miller continued.

It is difficult to clear up the conditions which favor the development of hay fever," Dr. Miller concluded. "It is hardly practicable to cut down all the trees and shrubs which are responsible for the spring type of hay fever. But it is possible to remove a large part of the ragweed that causes the fall type. Every summer thousands of empty lots are cleared or ragweed. If you have ragweed growing on your property, have it removed. You will be doing a real service to the thousands of people whose lives are made miserable because of its pollen."

Corpsman William E. Shults, 808 South Eighth street, and son of Mrs. R. L. Fuller, 831 South Main street, Corsicana, who arrived at Brooke Convalescent Hospital, Brooke Hospital Center, Fort Sam Houston, Texas, August 2, was liberated from the Japanese prisoner of war camp at Cabanatuan by the 5th Rangers on January 31, 1945.

Japs Were Cruel. Shults related: "I was serving as a rifleman with Company 'A' 31st Infantry Regiment and was captured April 1942, when the remaining troops on Bataan surrendered to the Japanese. I was taken to a Japanese bivouac area and was placed on details digging gun pits and carrying ammunition. The Japanese had not yet taken Corregidor. They treated us severely, kicking us around and browbeating us, and it made no difference to them what they would strike you with, just whatever was at hand, a pick, axe, rifle, or jab with a bayonet. I was jabbed in the stomach and there was no given medical treatment. While I was on this detail I was fed fairly good."

"March of Death." "Then, we were sent to join other troops and started on the 'March of Death,' hiking from Camp Caban to Camp O'Donnell, a forced march of approximately 65 miles, lasting for fourteen days. The men were in poor condition, weak from wounds and improper food, and lacking medical treatment. We were prodded on our way by the Japanese with their rifles and bayonets during the entire march."

Clubbbed to Death. "When one of our men would become too weak to march, we would attempt to help him along, but the Japs would not permit this. And, any man who fell by the wayside would be clubbed with a rifle or bayoneted to death. During the entire fourteen days march I was given only two meekles of rice, I weighed 180 pounds when captured and when I arrived at Camp O'Donnell I weighed only 130 pounds."

"After our arrival at Camp O'Donnell the treatment was just as rough as on the 'March of Death.' The first week there we lost around 1,700 men from starvation and lack of medical treatment. We were detailed on jobs of building roads, digging gun pits, working on airfields, and digging buried places for our dead. During my stay at this camp I saw several American soldiers killed and alive."

Four Food Rations. "I was then taken to Cabanatuan. A few were taken there in trucks and I happened to be lucky. The majority of the men had to make the transfer by hiking. There the enlisted men and officers were separated and placed in separate barracks and on separate details. However, the same poor food rations were given the officers and enlisted men. We were fed twice a day for about a month, and then three meals (if they could be called such) a day. The food consisted mostly of rice and Camote, tops (sweet potatoes), boiled up as you would cook greens. 2,800 men died there from diseases—dysentery, malaria fever, beri-beri, etc."

"I saw three American officers killed through no fault of their own. They were working in the gardens and the Japanese guards later claimed that they had gone too close to the fence, and they were shot without any warning having been given."

"During the thirty-three months that I was a prisoner I was issued three Red Cross packages. We were, I understand, supposed to receive one a month. I want to say that these packages were real life-savers to us."

Liberated by Rangers. "The prisoners at Cabanatuan were liberated when the 6th Rangers fought their way through the Japanese lines and took over the camp. They had traveled 32 miles through the Japanese lines to rescue us. My first impression was that the Filipino Guerrillas were coming in after us, or that the Japs were going to kill all the prisoners when the firing started, but it was only a few minutes until we knew what was taking place. Two American soldiers came up to me and asked where the guards were, and told me to head for the main gate, that I was liberated and we would have to get out fast. I told them of sev-

GROUP MEETINGS ON CONSERVATION ARE ANNOUNCED

Group application meetings for planning and establishing conservation practices will be held throughout Navarro county this week, according to C. O. Ferguson, work unit conservationist.

"It is most urgent for all cooperators desiring technical assistance this year to be present," Ferguson said. "A time schedule will be made from requests at these meetings, allotting the time of the soil conservation service technicians for the remainder of the year."

The schedule for meetings was announced by Ferguson as follows:

Tuesday: Angus, 1:30 p.m., McClung's Nursery; Long Prairie, 1:30 p.m., Silas Ranch; Round Prairie, 1:30 p.m., gin, whites; Round Prairie, 3 p.m., negro school, colored; Rural Shade, 3 p.m., school; Navarro, 8:45 p.m., school.

Wednesday: Barry, 1:30 p.m., school; Corbet, 2 p.m., gin; Bryan, 3:30 p.m., school.

Thursday: Jester, 2 p.m., J. L. Young's home; Corsicana, 2 p.m. and 8 p.m., county court room; Pursley, 10:30 a.m., Payne's Store.

Personal.

D. P. Bailey of Spurger, Tyler county, resident of this community until three years ago, is visiting friends and relatives here for a few days.

Members Eastern Star Are Feted By Miss Cavender

Climaxing her year's work as Deputy Grand Matron, District one, Section Six, Order of Eastern Star, Miss Anna Belle Cavender entertained with an all fresco outing at the City Park on Friday evening. The hostess welcomed the guests, and introduced programed features of the evening.

Highlighting the entertainment program were readings by Patti John Bunch and Mrs. Elbert Walker, and a sing song with W. D. Murray as director.

Mrs. Nellie Posey of Wortham, Miss Catherine Meade of Palestine and Mrs. Cora Smaling of Corsicana were introduced as Past Deputy Grand Matrons of Section Six, and Miss Adlyn Hays was presented as the Grand Representative to Kentucky.

Diversity features of the evening were original stunts by each of the eight chapters included in Section Six.

During the refreshment interlude ice cream and cake were served by the hostess with Mrs. Marguerite Burk, Worthey Grand Matron, in charge of the cake.

Representatives of the various chapters included five from Wortham, eight from Richmond, forty-eight from Corsicana, nineteen from Tennessee Colony, eighteen from Palestine, and one each from Dallas, Bardwell and Missouri.

Dairy Cattle Judge Announced For Fair

I. Walker Ruppel, head of the Department of Dairy Husbandry, A&M College, will be in Corsicana to serve as judge of the dairy cattle division at the annual Corsicana-Livestock and Agricultural Show, Sept. 18-22.

Entries in this department will close at noon on September 18, according to J. R. Hardt chairman. Competition is restricted to Navarro and adjoining counties.

All animals must be registered and certificates exhibited to the chairman upon request. Basis for computing age classifications will be January 1 and July 1.

Entry blanks may be secured by writing to the Corsicana Chamber of Commerce. Persons interested in receiving fair catalogs also are advised to place their requests with the Chamber of Commerce offices.

Cream Supper

There will be an ice cream supper at the Route Methodist church Friday night, Aug. 31st, given by the Home Demonstration Club. Everybody invited.
